PROFILE

Dynamic and detail-oriented Web Developer and Designer with a passion for crafting high-quality, user-centered digital experiences. Proficient in modern web technologies including HTML, CSS, JavaScript, and React, with extensive experience in building responsive and interactive websites. Skilled in front-end development, with a strong focus on enhancing user interfaces and improving user engagement through intuitive design. Known for creative problem-solving, excellent attention to detail, and a collaborative mindset. Recently built and deployed an e-commerce platform, demonstrating a comprehensive understanding of web development from concept to deployment. Eager to apply my expertise in a challenging role to create visually appealing, efficient, and accessible web applications.
